

## Hen Parties at Craft in the Bay.

[www.makersguildinwales.org.uk](http://www.makersguildinwales.org.uk) T: 029 2048 4611

**Recycled jewellery:** during this colourful workshop you will learn how to use materials such as buttons, beads, wire, ribbon, fabrics and plastics to create bracelets, pendants, hair accessories – all wearable and individual designs!

**Pewter jewellery:** carving designs for pendants in blocks of plaster of paris and then casting these in pewter. The tutor will show you how to file, drill and add jewellery findings to your work.

**Silver jewellery:** learning how to create patterns and textures on sheet silver, manipulating the silver to create simple forms that can be made into a pendant.

This workshop costs an additional £5/head due to the cost of the materials.

**Pottery:** creating pots or sculpture in clay. We have pottery wheels if you would like to try your hand at throwing a pot. All work will need to be left at Craft in the Bay to dry and be fired. It should be ready for collection two weeks following the date of the party. Alternatively you can use air-hardening clay which can be taken away the same day.

**Feltmaking:** using coloured fleece to create a bag, purse or picture in felt. Please bring rubber gloves.

**Fused Glass:** Learn how to cut coloured glass and layer this with other materials such as wire and paper to create your design for a coaster and/or pendant. All work will have to be fired at Craft in the Bay and collected approximately two weeks following the date of the workshop.

**Costs:** £20/head for two hour session apart from Silver Jewellery which is £25/head  
Maximum number of people: 10 Minimum charge of £150 applies for smaller groups. Deposit of £50 payable on booking.
